MRS. MYERS' READING ROOM

Mrs. Myers' Reading Room is proud to partner with your school and your children this year. We will be on site providing select services and offer a wide variety of additional services at our center located nearby in Racine.

At the Reading Room, we help children of all learning abilities discover the joy of reading using the Myers' Method. This method combines traditional and innovative techniques to form a highly effective teaching format for instructing students in a fun and successful way. Our multi-sensory approach brings together auditory, visual, and kinesthetic (motion-based) learning aids in the presence of background music while participating in high-interest activities. The Myers' Method builds reading fluency and comprehension through sequential developmental learning tasks, and these methods are not available in conventional classroom situations.

We offer classes for pre-readers decoding letter sounds, advanced readers looking to build upon executive function, and private tutoring are also available. Classes are offered Monday through Saturday at various times for children ages 3 – 12. Call ahead and make an appointment or stop in for a tour to see the program in action. Mrs. Myers' Reading Room, where learning to read is fun!
